The places we keep

Exploring Australia's heritage places, their significance, experiences and threats.

Explore the data →

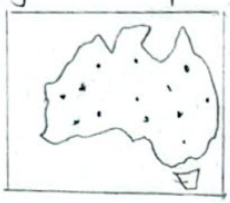

Australia's heritage at a glance

21 World Heritage places | 126 National Heritage places

Section 1 Geography / Distribution

01. Where are Australia's Heritage places

Fig 01 Dot Map

- locations of national & world heritage places
- filter by type

Fig 02 Choropleth Maps

density (places per 100,000 km²)

Compare states

Fig 03 Marimekko

- number of places by state and category
- compare composition

Section 2 Significance / Recognition

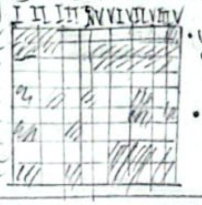

02. Why are these places significant?

Fig 04 Isotype

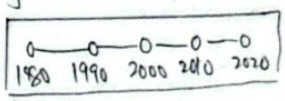

- total national vs world heritage places
- simple comparison

Fig 05 UNESCO Criteria Matrix

- which criteria each property meets
- total per criterion

Fig 06 Timeline

- additions over time
- national vs world heritage

Section 3 Experience

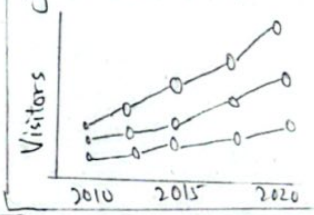

03 How do people experience these places?

Fig 07 Proportional Symbol Map

- park visitor numbers
- circle size shows visitors
- filter by type

Fig 08 Line Chart

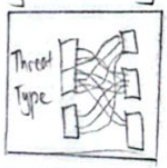

- park visitors trend
- compare selected parks

Section 4 Threats

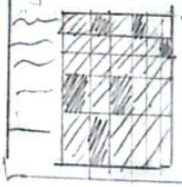

04 What are the main threats

Fig 09 Sankey

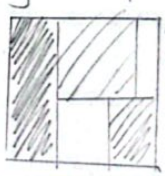

- how threat types relate to heritage values

Fig 10 Heatmap

- % of reports mentioning each threat over time

Fig 11 Treemap

- share of reported threats
